SANTA & COLE

IP 20

A line of light and a thin aluminum sheet. The elegance of its arc is visible even to distracted eyes, soon soothed by the calmness of its reflected light. Its concave surface in matte white ensures optimal light quality without glare, while the glossy reverse provides a refined visual effect.
The Lámina family was born aloft as a series of pendant lamps, with a lightness that speaks of intelligence. Lámina 165 is the longest, the narrowest, and without a doubt, the slenderest—a refined silhouette that, when raised as a luminous sculpture, stands out gracefully against any backdrop.
