As a natural evolution of the Cirio family—originally conceived as a pendant—this wall-mounted version brings the light closer to the user. The shade is held by a subtle, linear aluminum structure fixed to the wall. A design that enhances corners with serene subtlety, whether used on its own or in a series.

The Cirio family has four shade options. The handcrafted Sargadelos porcelain, whose translucence bathes the white shade in amber, provides a diffuse and very warm light. In its striped version, it also gains texture and three-dimensionality. For greater luminous efficiency, opal glass offers a more intense and economical alternative. Finally, the opacity of brass allows for focused, directional lighting.
