Floor lamps

Metal structure:

Satin nickel

Chrome-plated

Diana

A

Diana Mayor

B

Classic, modern, slender, and confident. Diana features a generous central metal base that tapers into a slimmer shaft as it rises, culminating in a softly tapered parchment drum. Two bulbs are arranged such as to provide lighting without creating shadows, ensuring a warm, balanced glow. Available in both its original and a smaller size.

Named after the wife of the mayor of Olympic-era Barcelona, Diana was designed to elevate the city's official office—a space destined to welcome key figures from the international political scene, projecting the refined spirit of Barcelona's design to the world.
