Table Lamps

Black aluminium

Natural aluminium

Brass

A base, an arm, a shade; a square, a line, a cone; steel, brass, aluminium; and the magic of light. Gira sums up the basic components of a lamp. These have been reconfigured based on the traditional flexible reading lamp, to allow flexibility of movement. The design is simple, while versatile in function: featuring a rotating arm and an adjustable shade. It can form localised beams of light for working, reading or writing; in a room, a hotel lobby or an office.

Look at it once, then try and sketch it from memory. The Gira lamp portrays the simplicity and distinct profile of a classic. It is an inherent part of Barcelona's design history. Created in 1978 by Ferrer, Massana and Tremoleda, it was originally produced by Mobles 114 - an editing company founded by Massana and Tremoleda. It achieved international acclaim, receiving awards and places in exhibitions all over the world.

However, what truly distinguishes Gira lies in its function – a unique ability to foster an intimate connection between the user, the light and its surroundings.

General description:

Rotating chrome-plated structure.

Grey metallic base.

Brass, black anodized aluminium, or natural anodised aluminium orientable shades.

Electric cable length: 2,25 m / 88.6"

Approximate weight (unpacked):

2,2 kg / 4.8 lb

Technical information:

European version: Light source included

American version: Recommended light source (not included)

LED bulb: 11 W / 1.521 lm / 2.700K

E27 - E26 / Max. hgt. 110 mm / 4.3"

Specific bulb diameter: 40 mm / 2.36"

Suitable only for indoor use.

Always use the light source recommended or equivalent.

Input voltage: 100, 120, 230 Vac.

(50 Hz / 60 Hz). According to destination
