Sexta

A

Sexta 12

B

This New Century design is a lightweight, double circle of light divided into six 60° sections, for the small version, and twelve 30° sections for the large version. As with all designs by Miguel Milá, master and pioneer of Spanish design, the composition is beautiful and simple, generating a well-nuanced lighting.

Sexta is a renewal of the iron luminaire, reminiscent of traditional medieval chandeliers. Its illustrious, solid predecessor is the Estadio, also designed by Miguel Milá; when paired in the same room, they maintain a beautiful balance.
