Structure (American version)

Trípode is a family conceived to humanise spaces. The GT5 suspension lamp, from 1994, was the first of a large family that was born as an alternative to the use of cardboard, methacrylates or solid textile shades, bringing back forgotten artisanal techniques through its handmade cotton ribbons. When turned on, they provide a characteristic warm light, rich in nuances. With the light off, this lamp is a sculptural statement piece that enhances the room.

As the Trípode family has grown to meet different needs, so have its taping options. In 2022, for its 25th anniversary, we presented two new options designed by textile expert Júlia Esqué. The collaboration consists of an intervention resulted in the Diplomática striped ribbon and the Bretona striped ribbon, two typologies that bring rhythm and personality. A totem of contemporary design.

General description:

Black metal structure.

Natural, red-amber, black, Diplomática striped or Bretona striped ribbon lampshade.

Electric cable length: 2,5 m / 97,5"

Approximate weight (unpacked):

4 kg / 8.8 lb
