

Trapezio Bench

Antonio Montes, Montserrat Periel. 2003

Code: TRB11

Materials: Structural timber beams 4.50 m long with an approximate section of 20 x 40 cm made from glulam, protected with one-coat oil.

The supports are made of hot-dip galvanised shaped steel with painted finish, to which the two beams are fixed using steel screws with anti-rust protection.

Slats:

Glulam larch. One-coat oil finish

Structure: Galvanised steel. Painted RAL 9006

(Other colours available to order)

Weight:

380 Kg.

Installation: Fixed using expansion anchors and a concrete cube, 10 cm below ground level.

The bench is delivered dismantled with assembly instructions.

Screws and expansion anchors included with the support structures.

Maintenance: No functional maintenance is required, except to preserve the original colour of the wood.
